

VIPATIENT TELEMEDICINE

Real-time video telemedicine for your private practice.
No downloads, no hassle— just high-quality service for superior care.

Take your practice to the next level of care

Your patients are already familiar with video chat, so why not connect with them that way? With the VIPatient web and mobile applications, you are more accessible to your patients' busy schedules. Save them the inconvenience of having to travel to your office, while still being able to provide top-notch care.

FEATURES

- Unlimited real-time doctor to patient video sessions
- Unlimited real-time peer to peer consultations
- Tiered user permission
- Intuitive dashboard interface
- Simple One-Click approach for patient

Private, secure, HIPAA-compliant

The privacy and security of your online interaction is something we take very seriously at VIPatient. All video calls are encrypted at all points, and we use a complex algorithm to keep unwanted parties out. You can be confident that the only other person on your call is your patient.

Intuitive dashboard interface

Our intuitive and easy to use dashboard brings the VIPatient application to your fingertips. From here you can schedule new appointments, start an appointment, or even get caught up on the most recent concierge medicine news. We are constantly adding new features to the dashboard, updating it for the most important functionality.

Reinvent the house call

The days of visiting a patient at their home has gone by the wayside, but VIPatient is reinventing the house call for the 21st century. Give your patients the care they deserve with the convenience they desire. With VIPatient, you can connect in real-time to your patients over a web and mobile application purpose built from the ground up.

HOW IT WORKS

Step 1:

Your patient schedules an appointment with your office.

Step 2:

15 minutes before their appointment, patients receive a secure link to your virtual waiting room. No login or download necessary

Step 3:

When you are ready to begin, it's easy to start your virtual appointment
